Your road to freedom

Designed for comfort, built for adventure

ADVANCED BONDED CONSTRUCTION

10 year WATER INGRESS WARRANTY

2026 Collection

New in 2026

Excellent craftsmanship, high quality construction and thoughtful design are at the heart of every Coachman caravan. You can rely on our reputation of uncompromised build quality for producing innovative high specification caravans which offer a variety of sleeping and seating arrangements. We are confident that the new models introduced for 2026, along with our wide selection of layouts, means you can find the perfect caravan to suit your lifestyle among our latest collection.

For 2026 we have introduced four brand-new layouts allowing us to offer 19 models across the attractive Acadia, best-selling VIP, flagship Laser and the luxurious LUSSO ranges.

Whether you're looking for that little extra space to kick back and relax, bring more home comforts long or just entertain, we offer superior eight-foot-wide models in the Acadia, Laser & LUSSO ranges.

All Coachman 2026 season models come with the ALDE hot water & heating system as standard offering performance and flexibility at your fingertips., AL-KO Automatic Trailer Control (ATC) system putting your safety at the forefront.

ADVANCED TECHNOLOGY

Relax and enjoy your Coachman caravan safe in the knowledge there is no compromise on quality, safety or durability.

Our exquisite 2026 caravans are built using innovative materials and our Advanced Bonding Construction (ABC) techniques, which enables us to ensure every Coachman is of the highest quality, weight competitive, durable and easy to take to your favourite destination.

We're so confident of its effectiveness, that every Coachman comes with our ten-year water ingress warranty as standard. *(T&Cs apply. See website for details)*

RIGOROUSLY TESTED

Every single one of our caravans are meticulously quality checked at several key stages throughout the manufacturing processes.

COMPETITIVE WEIGHTS

By constantly reviewing our design and manufacturing methods, we have been able to maintain competitive weights for our caravans without compromise.

WATER RESISTANT

Each Coachman is fully bonded using innovative materials, specialist adhesives and the best build techniques, virtually eliminating the threat of water ingress.

STRONG AND SEAMLESS

The strong and durable body frame is made up of a tough, Polyurethane (PU) material and uses Structural Reaction Injection Moulding (SRIM) techniques.

Coachman share Alde's uncompromising attitude to quality and customer satisfaction, which is why you will see Alde fitted in all 2026 Coachman caravans.

TURN UP THE HEAT

The Alde technology is as sophisticated as the heating found in modern, high-tech homes.

Alde works in close partnership with Coachman. Each stage of the design process is reviewed to ensure heat output, ventilation and installation is as efficient and effective as it can be.

Coachman caravans are subject to cold chamber testing. During the test the caravan is cold soaked down to -15°C for ten hours. After this the caravan must heat up to 20°C within four hours and running water must be operational to achieve a Grade 3 pass.

The radiant, hydronic central heating offers many benefits:

- It heats every part of the caravan creating a homely warmth whatever the season
- The glycol heating fluid circulates quietly around the vehicle ensuring peace and tranquility
- Both gas and electric power sources can be combined when required, giving you hot water, fast
- Low 12V battery consumption, ensuring you and your batteries can go further
- Pipes and radiators are mounted discreetly behind furniture, optimising available storage

2026

This leaflet has been designed to provide you with basic information prior to making a purchase decision. Please refer to your dealer for additional information before you buy.

Coachman Caravan Company Limited reserves the right to, and does from time to time, alter technical specifications, prices and model ranges as materials, model improvements and conditions demand, therefore can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the leaflet (e.g. fruit and personal effects) have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean colours are not truly represented.

It should be noted that distributors and dealers are not the agents of Coachman Caravan Company Limited and therefore are not authorised to bind the Company by any specific or implied undertaking or representation.

All Coachman models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice, specifically relating to health and safety issues.

The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions to gas, electrics and ventilation.

Every Coachman motorhome carries the "NCC Approved Caravan" badge. The NCC also conducts unannounced inspections at the Coachman factory to ensure continued compliance. NCC Approval gives you peace of mind that your caravan is legal and safe.

As the owner of a Coachman caravan, you will be automatically entitled to join our Owners Club. For more information about the Club, please contact: The Membership Officer coachman.membership@gmail.com
