Enjoy flexible, practical, and comfortable living, in these new compact caravans, with the same DNA of the much-loved original.

An all-new design of this iconic caravan, as two distinct models, with redefined yet familiar shape and interiors which feels much bigger than the exterior perspective, thanks to the smart use of space.

Action: New interior design, calm and cool, with new mood board, materials and furniture.

Action Sports: New interior design, with darker tone mood board, materials and furniture.
