CARAVELAIR ANTARÈS

A caravan range with something for everyone

Perhaps you like tent camping and are looking for a means of enjoying the great outdoors all year, with the comfort of heating, showers and fixed-beds. Perhaps you're looking for your first venture into the freedom outdoor-campsite lifestyle, of action-packed weekends and holidays. And perhaps you're looking for bright, white, clean-lines styling in a caravan stacked with ultra-modern character.

The new Caravelair Antarès range ticks all of those boxes

and more besides. Over the following pages you'll find details of each of the six models, one of which is the winner of Caravan magazine's 2018 award for Best Lightweight Caravan for Families.

We've spent lots of time in all of the 2018 Antarès models –and enjoyed our Antarès experience thoroughly.

We're sure you'll be just as impressed as we are.

Style, value and lots of refinements

CARAVELAIR ANTARÈS 2018 RANGE

Six caravans arrive from France for 2018, light in weight, low on price and big on style. These outstandingly great-value caravans are imported exclusively by the Marquis group, the UK's largest dealer network.

Caravelair caravans are made by the giant Trigano group, which manufactures caravans, motorhomes, mobile home lodges and awnings amid the Rhone Valley vineyards in France's Ardèche region. Caravelair is the leading brand of the Trigano group; these caravans are the most popular in France.

The Antarès range starts from just £14,495; that's for the two-berth 335. The range offers models ideal for couples and models specifically designed for families. All of them have layouts that are refreshingly different from caravans made in Britain; the French style majors on sleeping and dining – throughout the range, both beds and dining tables are large.

Caravelairs come with full-door fly screens, spare wheels, hitch-head stabilisers and shock absorbers – all that you'd expect, and much more besides, at this price.

CONSTRUCTION

Caravelair Antarès caravans have polyester bodywork; the hardness of the polyester offers excellent resistance to dents (especially hail damage) and scratching. The thick, smooth polyester surface is strong and easy to clean. The polyester coating is an integral part of the insulation system. More flexible than aluminium, polyester provides better absorption of noise from rain or hail and is more effective thermally.

GRADE THREE THERMAL INSULATION

Marquis arranged for the Caravelairs to be assessed for Grade 3 thermal insulation efficiency in Truma's high-tech Climate Chamber testing facility in Derbyshire.

The facility allows engineers to test the performance of heating systems in accordance with DIN EN1645-1 in caravans to reach Grade 3 accreditation. Grade 3 is a European standard that measures the thermal qualities of a caravan.

The caravan must go from -15°C to +20°C within a four-hour period. If it passes, the caravan can officially be labelled as thermally efficient with the Grade 3 certificate. The Caravelairs passed the test with flying colours.

...this is the lowest-priced tourer range in the UK, yet Caravelairs are equipped with all the essentials and more besides

NEW FOR 2018

A barbecue point arrives for 2018, together with an exterior mains socket – and a surprise in a caravan designed for first-time-tourer budgets: an external shower point; perfect for washing muddy dogs and boots after a walk.

STYLING

Styling is amazing. Pale woodwork, clean lines... The upholstery is almost white with a fawn fleck, bordered by dark brown suede-look fabric. It's a bright, sparkly, modern look. If you like IKEA style, you'll love the Antarès.

There's a general quality look and feel about these caravans. The furniture feels very solid in construction. And the fabrics feel as if they're made to last a long time.

COOKING

Antarès models have the Thetford Duplex combined oven and grill. We love the design of the hob, with two burners and a mains hotplate. What's special is that the pan rivet covers only the burners, so there is plenty of space around the hotplate, enabling you to use quite large pans on it.

HEATING

These exclusive 2018 Caravelair models have the Truma Combi 6 blown air central heating system and water heating system which operates on either gas or electricity.

NEARSIDE DOOR

Caravelair Antarès models now have their doors on the nearside, in British style; the first Antarès models to arrive in Britain, in 2017, had doors on the offside.

PLUS PACK

The price includes the Plus Pack which gives you £1299-worth of equipment - that's a solar panel, a Maxview Pro TV aerial, a leisure battery – and a year's caravan insurance.*

* Subject to terms and conditions and acceptance criteria.

LIGHTING

Distinctive refinements throughout the range include lights in the oven-grill units, ceiling lights composed of scores of tiny LED bulbs set behind gleaming glass-effect panels, and spotlights on long, flexible stalks.

COOKING

Caravelair Antares caravans have Theford Duplex combined oven-grills (fitted with lights inside!) and three-burner hobs; all that you need is here.

AL-KO SHOCK ABSORBERS

Caravelair Antares models are fitted with the innovative AL-KO shock absorbers, which provide superior levels of ride comfort and road holding characteristics, whilst improving general stability of the caravan and making your journey more enjoyable.

OUR VIEW Exceptional Value

If you're looking for light weight and exceptional value, and you'd also like a caravan of crisp, modern style, with amazing bright white lights, impressively solidly-constructed furniture, plus generous storage capability, you've found it in the Antares range,

all wrapped up in clean-lines body shapes with attractive decals – including the Marquis crown that symbolises excellent service, placed above the Caravelair symbol.

THE 2018 RANGE

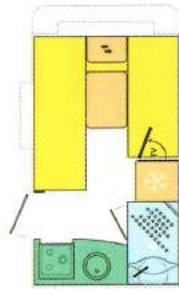

Practical & Versatile Layouts

From the tiny, ultra lightweight two-berth 355 to the six-berth 496, the Antarès range caters for couples and families with six essentially practical layouts.

Three have permanent double beds. The family 496b layout has bunk beds and an offside dining area which transforms into two more bunks. There's an Antarès for all layout needs.
