

FORDPASS CONNECT

Wherever the road takes you, stay connected.

ACTIVATE THE APP IN 3 EASY STEPS

1 Download the FordPass App and create an account.

2 Add your Vehicle Identification Number (VIN) to the app, then tap 'Activate Vehicle'. Your VIN can be found on the driver's side bottom corner of the windshield.

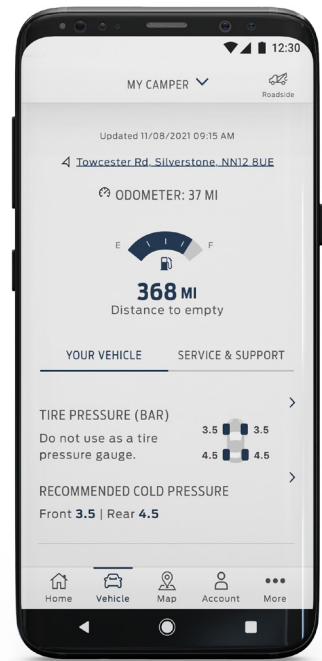

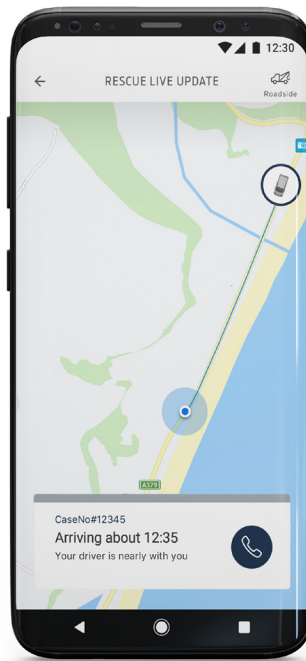

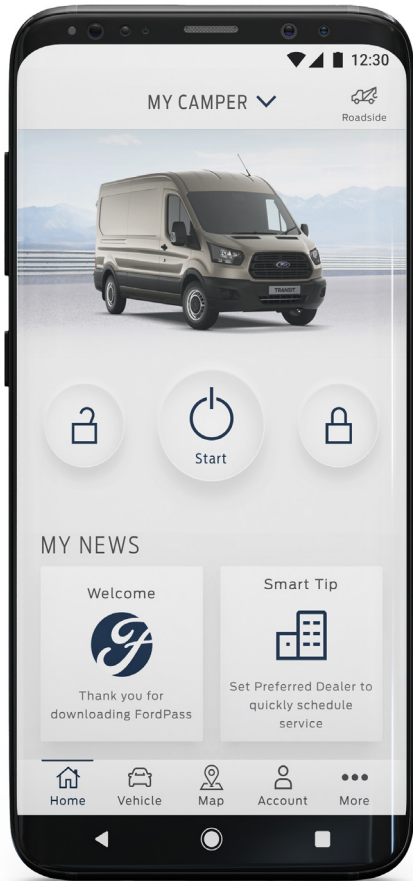

3 When you start your vehicle*, a message behind the steering wheel will say, 'confirm association of this vehicle to user...' Press 'OK' on the steering wheel buttons.

That's it! Your camper is connected. Now see what it can do.

FORDPASS CONNECT

Discover a range of smart systems designed to keep you and your camper effortlessly connected on every adventure.

Remote Lock/Unlock

Never wonder again if your camper is locked when you're too far away to check. Use FordPass to remotely lock or unlock from anywhere, then get on with your day without worry.

Remote Start

Cold morning? Automatic vehicles can be started remotely so that they're warmed up, de-iced, and ready to go when you are.

Roadside Assistance

A Roadside Assistance Plan makes it easy to get back on the road. If you run into trouble, you can easily contact Roadside Assistance in the app**, and track them on their way to you. They'll be given your precise location, and information on your vehicle, so they know the issue before they even arrive.

SecuriAlert

SecuriAlert puts your camper into a heightened state of security. Activate it when you leave your vehicle for extra peace of mind. If it detects your doors being unlocked or opened (even with a duplicate key), you'll get a notification straight to your phone.

Health Status + Alerts

Your camper's health is important. And discovering potential issues early can make a huge difference. See your vehicle's health status at a glance or in detail, and get alerts when something needs your attention. You'll get accurate updates on tyre pressure, oil life and other fluid levels.

Vehicle Location

View the location your vehicle was last turned on or off in a map within FordPass, and see directions to the vehicle from your current location. It's perfect for when you need to find your way back to the camper after a long day exploring.

Ford policy is one of continuous product development. The right is reserved to change the items illustrated and described. FordPass features shown are available with selected vehicle models and specifications.

*Vehicle specification shown may differ.

**The Roadside Assistance feature requires an active Roadside Assistance Plan.
